WWS 593b: Reproductive Health and Reproductive Rights

Tuesdays: 9am – noon
Room 290 Wallace Hall
Fall Semester (second half) 2003
September, 2003

Professor James Trussell
202 Wallace Hall
Tel: 8-44946
Email: trussell@princeton.edu

This six-week seminar will explore issues in reproductive health and reproductive rights, viewed through the lens of the new reproductive health paradigm established at the 1994 Cairo Conference on Population and Development. Grading will be based on class discussion (20%) and a final paper on any topic relating to reproductive health (80%). The two primary texts for the seminar are:

> Hatcher RA, Trussell J, Stewart F, Cates W, Stewart GK, Guest F, Kowal D. *Contraceptive technology: seventeenth revised edition*. New York NY: Ardent Media, 1998.
>
> Tsui AO, Wasserheit JN, Haaga JG (editors). *Reproductive health in developing countries: expanding dimensions, building solutions*. Washington DC: National Academy Press, 1997.

Copies of both are available from Melanie Adams in Room 201 Wallace Hall. Students are expected to have skimmed the first text and read the introduction to the second by the time of the first meeting. Students should also sign up for the Kaiser Family Foundations daily reports on reproductive health and HIV/AIDS (www.kff.org).
