A small, intimate setting is a hallmark of the Woodrow Wilson School. Students receive individualized attention from faculty and administrators, and the small size maximizes the opportunity for M.P.A. and M.P.P. students to work together and benefit from each others' experiences.

At left: The William Church Osborn Professor of Public Affairs, Professor of Politics and Public Affairs, and the Faculty Chair of the M.P.A. program, R. Douglas Arnold, teaches a course in Domestic Politics. This course includes theoretical and empirical analyses of political institutions, including executives, legislatures, and bureaucracies. It also examines the political environment in which these institutions operate, with special attention given to the role of public opinion, interest groups, and elections.
