WWS533 Planning Theory and Process Tentative Course Syllabus

Instructor: Dr. Shlomo Angel
Lecturer in Public and International Affairs
Office: [To be announced]
Home Address: 284 Lafayette Street, Apt. 3B
New York, NY 10012
Home Telephone: 212-925-9055
E-mail: sangel@princeton.edu or solly.angel@gmail.com
Administrative Assistants: [Renee Weist](#)
342 Wallace Hall
609 258-4856
weist@princeton.edu
Philomena Fischer
318 Bendheim Hall
609 258-4602
pfischer@princeton.edu

Introduction

Objective:

This course is a general introduction to the theory and process of urban planning. It aims to acquaint students with the historical antecedents of modern town planning, to introduce them to planning problems and strategies in a wide range of cities and countries, and to engage them in discussion of a wide range of planning issues. Through readings of a broad range of texts in the field, lectures by the instructor, class discussion, and the presentation of case studies by students and guest lecturers, students are introduced to the successes and failures of the urban planners in the past, to what we now know about cities and about how to plan and manage them, and to the challenging agenda facing urban planners today.

Course Description:

The course is designed as a lecture-seminar course. Participants in the course will meet twice a week, on Tuesday 9:00-10:30 and on Thursday 9:00-10:30, in Room 012 in Robertson Hall. Classes will start on Thursday, the 17th of September, and end on Thursday, the 17th of December 2009. Generally, each one-and-a-half-hour time period will focus on one theme (see Tentative Course Outline below). Students will be expected to read *any two* of the assigned articles for each time period before coming to class. The instructor will introduce the theme in a lecture, and selected students will prepare case studies related to the lecture topics and present them in class. The lecture and case study presentation will be followed by a class discussion.

Office Hours:

The instructor will meet students by appointment only at the lobby of Robertson Hall. Please e-mail the instructor to arrange for an appointment or contact the administrative assistants for the course. Appointments will generally be held on Tuesdays and Thursdays from 12:15pm to 1:30pm.

Course Requirements

There are three requirements for completing the course: (A) Required readings and diary; (B) preparation and presentation of case studies; and (C) a final research paper.

A. Required Readings and Diary: Students will be required to read *two articles* of their choice among the assigned readings for each time period, in preparation for attending class. The readings will be available on Blackboard. There will be, on average, 120-150 pages of readings each week. Students will be expected to write a diary with a 200-250 word response on each of the articles they read. The response should not be a summary of the article, but an opinion piece. It should convey what the student understood to be the main thrust of the article, how it connected to the student experience or other knowledge, whether the student agreed or disagreed with the author and why, and whether the student found it relevant and useful and why. Diaries should be kept up to date. On occasion, students may be asked to email their diaries to the instructor, who will read them and comment on them. The grade on the diary will comprise 33% of the course grade.

B. Preparation and Presentation of Case Studies: Each student will be expected to prepare two to three case study presentations. All in all, there will 18 case study presentations in class. If there are more than 10 students in the class, additional case studies may be assigned. Case study presentations will focus on a particular topic and its manifestation in a particular city (or region). They are expected to include basic information on the city (or region), as well as empirical findings on the topic being

explored. Once case studies are presented, they should be uploaded on Blackboard. They are expected to be 15-20 minutes long PowerPoint presentations [approximately 20-25 slides]. The grade on the case study presentations will comprise 33% of the course grade.

C. Final Research Paper: Students will also be required to write one final research paper (5,500 to 6,000 words) and to upload it on Blackboard by 5:00pm on Dean's Date, Tuesday, 12 January 2010. The paper can be on any topic related to the themes discussed in the course. It should explore a well-defined thesis and be well-researched and well-written. Students are expected to select their topic, to discuss it with the instructor by email or during office hours, and to send a *one-page outline* of their paper by email to the instructor not later than **17 November 2008**. The grade on the final research paper will comprise 33% of the course grade.

Tentative Course Outline

Date	Topic
Thursday, Sept 17	The emerging urban agenda—an introduction An excerpt from the silent film “Metropolis” [Fritz Lang, 1927]
Tuesday, Sept 22	Urban planning theory—an overview
Thursday, Sept 24	Urban planning in historical perspective Case study 1: Baron Haussman and the Reconstruction of Paris
Tuesday, Sept 29	Utopias as means of envisioning the city Case study 2: Brasilia—a utopian vision for Brazil’s capital
Thurs, Oct 1	Urban public works—the provision of infrastructure as a public good Case study 3: Is there a future for public transit in Atlanta?
Tuesday, Oct 6	Improving the competitive advantage of the city Case study 4: Attracting the creative class—Lessons from Pittsburgh
Thursday, Oct 8	The regulation of urban development Case study 5: The impact of regulation on house prices in California
Tuesday, Oct 13	Film: “Bombay: Our City”
Thursday, Oct 15	Tackling urban poverty 1 Case study 6: The Baan Mankhong program in Thailand
Tuesday, Oct 20	Tackling urban poverty 2 Case study 7: Why did the Model Cities program fail?
Thursday, Oct 22	Confronting the urban housing problem 1 Case study 8: the land titling program in Peru
Tuesday, Oct 27	Confronting the urban housing problem 2 Case study 9: The success of public housing in Singapore
Thursday, Oct 29	Encouraging people’s participation in decision-making Case study 10: Saul Alinsky’s work in Chicago
Tuesday, Nov 3	Fall Recess, no class
Thursday, Nov 5	Fall Recess, no class
Tuesday, Nov 10	Recycling the city Case study 11: Kelo v. the City of New London—The Use and Misuse of Eminent Domain
Thursday, Nov 12	Film: “Robert Moses and the transformation of New York City”
Tuesday, Nov 17	Sprawl and the management of urban expansion Case study 12: Portland’s urban growth boundary <i>*Students email one-page research paper outline</i>
Thursday, Nov 19	The protection of the urban environment Case study 13: Environmental justice in waste management in New York City

Tuesday, Nov 24	Governing the metropolis Case study 14: The Rise and Fall of the Greater London Council
Thursday, Nov 26	Thanksgiving, no class
Tuesday, Dec 1	Fostering the sense of community Case study 15: The Cristiana community in Copenhagen
Thursday, Dec 3	No class
Tuesday, Dec 8	Guaranteeing urban public safety Case study 16: Gated communities in Capetown, South Africa
Thursday, Dec 10	Forging a city identity Case study 17: The Guggenheim Museum in Bilbao, Spain
Tuesday, Dec 15	The search for a New Urbanism Case Study: Fourth Street, Berkeley, California, a guest lecture by Denny Abrams, its developer
Thursday, Dec 17	The challenges facing urban planning in the 21st century Case study 18: Climate Change and the future of the Eastern Seaboard Course Evaluation and concluding remarks
Tuesday, Jan 12	Dean's Date: Submission of final papers and diaries
